

# What is RISO printing?

RISO printing is a very green print process that uses recycle-able paper plates to 'screen-print' a single colour at a time onto paper or card.

Two or more colours can be printed (with half a day drying time for each). RISO printing is ideal for simple and clear designs, especially text and line-art.

RISO loves **bold graphics and photos with strong contrast**. RISO is **not great for photos** or drawings with subtle tones and gradients. A second or third colour will not always line up exactly with the first colour(s) – this is called **registration**. A good designer can easily create 'RISO-friendly' artwork where registration is not crucial – as shown in this leaflet.

*2-colour printing (like this) can be very effective.  
Tinted boxes can help to emphasise key points.*

If you can, please tell us:

- The size & number of pages
- Paper / card colour & thickness
- Which ink colour(s) – 1 colour: cheapest, 2: like this leaflet, 3: luxurious
- The number(s) of copies you want (printing more copies is cheaper per-unit)

# Introducing Oxford GreenPrint

We are a friendly, reliable and affordable workers' coop providing eco-friendly print services to Oxford and beyond. We offer:

- RISO printing – very green & no waste
- 100% post-consumer recycled paper
- Non-toxic soy inks – spot-colour with: black, blue, red, green and orange
- Delivered by bike within Oxford
- Design & Illustration also available

**24 sample prices inside** ➔

Our main focus is RISO printing – a very low-impact print process using spot-colour (like this leaflet). RISO uses just a sixth of the energy of the average digital printer and it generates only recycle-able paper waste.

# Oxford GreenPrint

Reliable, Affordable, Eco-friendly printing

This price-list is an example of two-colour printing, using blue and orange. Overleaf is two-colour printing using black and green. We also have red (Pantone 032) ink.

Oxford GreenPrint likes, when able, to support ethical community organisations and projects. Therefore all prices are negotiable.

We print up to A3 with 10mm margins – printable area is 400 x 280mm.

If needed we can trim within A3 for 'edge-to-edge' posters.

We can laminate up to A3 using non-toxic polyester lamination pouches.

We reserve the right to refuse work.
